

On-site calibration services

For Continuous Monitoring Systems

Vaisala's on-site calibration service for Continuous Monitoring Systems (CMS) helps to maximize reliability and profitability by minimizing costly equipment downtime, removing the need for in-house or factory calibration, and allowing your staff to focus on what is truly important: your business.

Our on-site calibration options:

STANDARD

In compliance with ISO9001
quality requirements

Available as single- and multipoint calibration

ACCREDITED

In compliance with ISO/IEC 17025
quality requirements

On-site calibrations include:

- Preparation and logistic costs of reference devices
- Device functionality check
- Traceable calibration
- Traceable calibration certificate
- Calibration date update
- Service report
- viewLinc calibration alarm acknowledgement if applicable
- Optional battery replacement for wireless devices

Calibrations are performed by Vaisala Certified Engineers.

The Calibration Care Agreement for field service is a multiyear maintenance plan for the calibration of Vaisala products. Benefits are clear and predictable service costs for the length of the agreement and advanced on-site scheduling.

Our comprehensive on-site calibrations fulfill international standards and comply with strict Life Science regulatory requirements. As a proof of the accuracy and reliability our on-site calibration measurement results are traceable to the international system of units (SI) through national metrology institutes (NIST USA, MIKES Finland, or equivalent).

ALL CRITICAL PARAMETERS CALIBRATED ON-SITE:

✓ RELATIVE HUMIDITY	✓ TEMPERATURE	✓ CARBON DIOXIDE	✓ DIFFERENTIAL PRESSURE
